

WEDNESDAY, DEC. 1, 1880.

Four prisoners escaped from jail at Litchfield one day last week.

It is pretty generally settled that Gen. Ben. Harrison will be chosen U. S. Senator by the Indiana Legislature this winter.

A THIRTY has been signed with China whereby the United States is given entire control of the importation of Chinese goods into this country.

CANDIDATES for the offices to be filled next August are announcing themselves in the Blue Grass region. They think the early bird will catch the worm.

Is a well written editorial the *Messenger* and *Examiner* urges Congress to appropriate \$50,000 for the erection of Federal buildings in Owensboro. We trust it will be done.

THE *Henderson Reporter* says five loads of the new crop of tobacco have been received in that market and were bought by W. K. Ayer for E. R. Nowcomb at 6 cents per pound, round.

JEREMIAH H. HANCOCK, one of our most prosperous young farmers, was married last night to Miss Mollie Day at the residence of the bride's father, Capt. Watt M. Gay, near North Middletown. *Clark County Democrat*.

It is astonishing that a Gay young lady should become so anxious to marry as to accept a Haggard husband. But alas! "such" is the weakness of the flesh.

Prof. J. N. PAXTON, Principal of the Haysville, Ky., Public Schools, has been elected Principal of the Madison High School, and will assume the position on the first Monday in January.

The only highwayman in Kentucky as far as heard from the Hunt brothers, residing near the Shelby county line, in Ohio county. One has been arrested and the other has fled the country. They will not no more stage coach in Kentucky. *Lexington Press*.

A COURT of the Independent Order Foresters was organized in Greenfield last week with Col. W. H. Vost as President, J. W. Church Vice-President, Lewis Bess Secretary, and J. D. Yount Treasurer.

HANCOCK will get no vote from Indiana as reported. The State Returning Board found that Parker, the Republican elector was beaten by reason of the failure of clerks to properly certify the vote and these clerks have been allowed to correct their errors.

MR. EMMETT L. LAMON has resigned his position on the staff and accepted the position of managing editor of the *Courier-Journal*. He is one of the ablest journalists in Kentucky, and his addition to the *Courier-Journal* staff will make that excellent paper still more appreciable.

MR. J. LEWIS KNIGHT, of Louisville, and Miss Edie Chasnett, of Frankfort, were married in the latter city on Tuesday last week. In this locality we generally go chestnut hunting in the Autumn days, but in this case we have no doubt but the Chasnett was found by Knight.

THE news gets better. Hon. Saml. J. Randall says the next House will stand 147 Republicans, 144 Democrats and 2 Greenbackers, who will act with the Democrats, thus leaving the Republicans only a minority. If Turner of Ky. had defeated White it would be one the other way.

THAT crusty old bachelor editor of the *Owensboro Messenger & Examiner* inserts the following in his paper:

"Having learned that an Ohio court has decided that married women do not own the clothes they wear. Simpkins, who knows more of the law than I, says the judge is right—they must wear the breeches belonging to their husbands."

ALTHOUGH we have no attorney, the Commonwealth is as able and successfully represented as in days of yore. Mr. Noe is winning golden opinions as prosecuting attorney, and is coming fully up to the standard claimed for him by his ancient friends and warm supporters last summer.

JUDGE L. P. LITTLE, our new Circuit Judge, is giving entire satisfaction. We have heard none but favorable criticisms passed upon his conduct here as a judge so far. Those who were croaking last summer about his ineptitude are taking it all back now and compliment him as being one of the ablest judges that ever presided over the court here.

COULD not the use of the letter "C" be curtailed to great advantage? When the soft sound of "C" is needed use "S," and when the hard sound is required use "K." Orthography would thus be wonderfully simplified and more easily learned. "C" need not be used except when it precedes or follows "H." Let us hear from some of our professors upon this subject.

POSTMASTER-GENERAL MAYNARD has sent an order to the Postmaster at Cincinnati to refuse the payment of money orders and refuse to deliver registered letters addressed to Byron H. Robison and other proprietors of the "Singular Tobacco Company," "American and European Street Service Company," "The Incho Company," and other enterprises that are extensively advertised.

AS ill-timed, hard hearted, illiberal old bachelor who has never proven himself worthy of the love of a pure, good woman gets off the following in the *Owensboro Courier*: "There's a bachelor's hall around the corner. Three horrid men live there and not a silver-tongued female in the east. The loneliness of that mansion can perhaps be imagined. There are none of those little incidents transpiring that go to make up the home of domestic felicity. No stove-hisling around, no delicious wafted odors from the daisy-hearth, no pieces of flesh nor tufts of hair clinging to the rolling pin. It's too bad."

THE Breckinridge News says that Thomas Hall, of that county, went to Louisville recently and sold his horse, and on his return home on the packet he was robbed of \$75.

Our friend and former county man, L. P. Haley, has accepted a position in the General Office of the Western & St. Peter Railway Company at Winona, Minn. His promotion has been rapid and shows what pluck and energy will do.

THE many friends of James H. Bannor in this vicinity will be glad to learn of his successful race for Clerk of the County Court of Vanandale county, Tex. This is his third race and he has been successful each time, this time by a larger majority than ever before. He is a popular young man and makes an excellent clerk and his continued success is merited.

WE read the attention of our readers to the communication of L. W. Bates, of Calhoun, to the *Examiner*, which appears on the first page of this issue. It is ably written and is well worth a careful perusal. The writer ably grapples with a subject fraught with interest to every man in the South and West, and every paper in these sections ought to republish this able document.

Is a significant evidence of the "unlability of human affairs" that in 1865 Secretary Stanton complimented Gen. Hancock for having captured "nearly" all the forces of the guerrilla Mosby and had offered a reward of \$2,000 for the capture of Mosby himself. Now Mosby is a "dell" Republican official, while Hancock is denounced as a traitor and a rebel, and everything else that is unpatriotic by the same party that could not too much praise him for his course in that case. *Ec.*

MEASUREMENT just made by L. W. Sutherland, gave further evidence of the championship of Judge Triplett in the championship of corn. On four acres planted in a new variety called the "Profit" he raised 57 bushels to the acre. The corn is of a fine, dry character, and many of the stalks produced from two to seven ears each. The yield of surplus grain seemed by the judge is something remarkable also. On seven-eighths of an acre he made 165 gallons of fine, clear, thick, delightful syrup. *Owensboro Messenger*.

THE Vote of the Country.

The *Chicago Tribune*, Nov. 27, furnishes the following statement of the vote taken from the official returns from every State in the Union of the late Presidential election:

Garfield	4,430,115
Hancock	4,436,014
Weaver	305,729
Dow	9,644
Scattering	1,736
Total	9,182,235
Garfield's plurality	3,401
In 1876 Tilden received 1,284,757, and Hayes 1,053,890.	
Hayes got 151,257 more vote than Tilden did. Garfield got 95,365 more than Hayes did.	
The majority against Garfield is 313,765.	

The vote between Garfield and Hancock is closer than was ever known between two Presidential candidates representing the two leading parties of the country.

Comet First Discovered Here.

The comet that has attracted astronomers far and near during the past autumn was first discovered in Hartford, Ky., by Mr. John M. Klein on the 26th of August. He called the attention of some of our citizens to it at the time and made the following report of it, which was published in the *Courier-Journal* of September 5th:

The comet of 1785 is in sight. I first saw it August 26th—last week. I don't know if you can see it in Louisville or not, as we are near two degree closer. Look for it after dark southeast of the Milky Way; it looks like the line of a large volcano ascending forth in the stream and smoke. All these clouds you see are from its mighty tail. It is strange to me why some of our astronomers don't say something about it. I have seen in the paper that the present heat in the southwest is from the sun, but I am satisfied it is the comet, as it is in the south.

Let's all look for it the first clear night we have.

Thanksgiving Dinner at Alexander's Hotel, Louisville, Ky.

The *Courier-Journal* says: "The usual big dinner was spread at Alexander's Hotel, where a large number of invited guests were in attendance. Among those present were five couples of newly-married people, besides many particular friends of the estimable lady of the house. The dinner was fit for a prince and all that an epicure could crave, as no one will doubt who is acquainted with Col. Joe's manner of doing the handsomest thing when occasion demands His spacious dining-room, arrayed in all its appointments, attested his popularity and success."

The *Courier-Journal* says: "The tables at this favorite hostelry fairly groined with the kind of a Thanksgiving dinner that only Col. Joe Alexander knows how to prepare. The bill of fare encompassed everything that the cunning of the caterer could devise. The tables were handsomely dressed, the silver was polished until it shone again, and the linen was as white as the Thanksgiving snow that covered the ground on outside. The dinner hour was from 1 until 5 o'clock, and during that time no less than 500 guests partook of the good things that were there. Mr. and Mrs. Alexander had a large number of their intimate friends with them, and they were 'never so happy before.'"

Gen. George B. Crittenden Dead.

Gen. George B. Crittenden died at the residence of his sister, Mrs. C. C. Young, in Danville, Ky., on Friday last. A special to the *Courier-Journal* has the following to say of him: "The deceased was a son of the late Hon. John J. Crittenden" and was born in Russellville, Ky., on the 26th of March, 1811. He received a liberal education, after which he entered the Military Academy at West Point, where he graduated with honor. Gen. Crittenden spent many years of his life in the United States army and was a volunteer in the Texas war of independence, and was taken prisoner at the battle of Mier and marched on foot to the city of Mexico. Through the exertions of Mr. Webster and Gen. Winfield Thompson, then our Minister to Mexico, he was released. He afterward took part in the war between the United States and Mexico, and was in the army when it entered the capital of the latter country. When the war broke out he was with his regiment in New Mexico, holding the rank of Lieutenant Colonel. His services were from the first with the Union, and he was assigned and returned to Kentucky, where he remained for a short time and then entered the Confederate service. He was made a Brigadier General, and remained in the army until the close of the war.

Gen. Crittenden was a man of unimpaired health, remarkable for his age, his modesty and unflinching adherence to truth.

This reminiscence will be taken to Frankfort on Monday for burial.

THE St. Louis Robbery.

The United States Marshal, St. Louis, has issued a statement that appeared in the *Standard* with reference to the recent arrest of supposed stage robbers in Ohio county. The statement complained of is that it was suspected that Bunker, the deputy sheriff, arrested Crittiff, the detective, to prevent him from obtaining the reward for the arrest of Hunt. Whether it was just or not, we do not know. The *HERALD* enters into an argument to prove that Bunker acted in good faith and that Crittiff would never have arrested Hunt. How this may be we have no means of knowing with certainty, and do not care to argue the probabilities. When the question of paying the reward comes up, we suppose the value of the respective services of the detective and the office will have to be determined. As we know neither of them, and are attorneys for neither, we feel no interest in the matter further than a desire that the parties may be compensated in proportion to their merits. We take pleasure, however, in saying for Mr. Bunker that his home paper describes him as a most deserving officer. *Lexington Standard*.

He's Been There.

A writer says every man should, if he desires to be happy and healthy, take a human conscience to bed every night. That's very explicit, so far as it goes, but isn't explicit enough. The clean conscience, in this kind of weather, ought to be wrapped up in a hundred or so pounds of warm-footed genuineness. Then it is the angels hover around with dreams of lachrymose cakes and fine messes, and a man feels like a larval of new New Orleans sugar. *Chicago Times*.

A Good Sell.

Kearney Phillips' "confession," which the Associated Press dispatches heralded with great flourish, turns out to be simply a humorous "confession" that he knows nothing at all about the money letter. The fact is the prosecution has entirely broken down and the press are beginning to return to their first impression that the letter was written by Garfield himself. He himself has never denied the authorship under oath, and his shingle assertion that the letter was a forgery, is not sufficient. It is more than probable that Messrs. Hovatt and Randall were right when they declared the letter to be in Garfield's handwriting. *Examiner*.

The East and North is solid because our protective tariff protects their manufacturing interests with the productive interest of the West, and South is taxed to pay them a premium on their protection. If the South and West would run their own manufactures and rely on their own resources, the East and North would not long remain literally solid. Touch their pockets and their solidity vanishes into thin air. *Mobile County Record*.

Some of the leading Democratic papers after Mr. Watterson for inserting the tariff plank in the Cincinnati platform, and claiming that he helped to defeat the Democratic ticket. We need not let the American people be all humb-skulls or idiots, and the fault of the Democracy was in not making the tariff question the issue of the campaign. Opposition to a protective tariff is a Democratic doctrine and as old as the party itself. A full discussion and explanation of the "free trade" doctrine ought to, and we believe will eventually, win all listening men to the Democratic party. *Elkhart Register*.

Butler County Items.

A few days ago John Vandagriff, of Ohio county, went to Aberdeen, indicted freely, after his "amusement and honorable" custom, entered the grocery of George Enbs and began making a speech. His gesticulation met a kettle of boiling water upon one John Mutchekians, who retaliated by giving Vandagriff a sound thrashing. *Kentucky News*.

The Kentucky News man of the *Courier-Journal*, who parts his name like a dandy part his hair—in the middle—is slightly mistaken. There is no such an orator as John Vandagriff in Ohio county; there is no such a man as George Enbs selling groceries in Ohio county; there is no man in Ohio county with such a jaw-breaking name as Mutchekians, and there is no town, city, village, hamlet, post-office or cross-roads place in Ohio county called Aberdeen. With these few exceptions the item, so far as we know, may be correct.

To the doctrine of protection the Republicans now propose to add Know-Nothingism; they by a tariff shut out foreign products and now seek effective way of shutting out foreign labor. This is logical, at least. It is impossible to see why, if the manufacturer is to be protected, the laborer is to remain unprotected. One excuse given for our present monstrous system of tariff is that it prevents our laborers from sinking to the level of the "pauper" labor of Europe. The fact is, the pauper labor of Europe sends thousands of representatives to this country every week to break down the labor market and bring it to the European level. The attempt to protect labor as capital is protected, to keep the foreigner out as now we keep out

foreign products, will show the injustice of the tariff. It is, in fact, a *reductio ad absurdum*. The Democratic holds to that principle of liberty which allows men to go and come as they please and which at the same time allows them to trade unmolested in England, Germany and South America. This is the way to build up the country or to allow the country to build up itself. *Courier-Journal*.

THE POLITICAL SITUATION.

Action of a Meeting of Indiana Editors on the Future Policy of the Democratic Party.

At a meeting of Indiana Editors on the future policy of the Democratic Party, held at Indianapolis, Nov. 27, 1880, the following resolutions were adopted: Resolved, That the Democratic Party will take to itself a better half before long, as the old usage is widowed, not going long before they are popping the question.

Continued on Clippings.

November 27, 1880.

Mrs. S. W. Jones, of this place, has gone to Saura, Hardin county, on a visit to her mother and will be gone several weeks.

Paul George Rowe and wife has just returned from Spring Lake. They report business in that town very lively, but as to that matter the Rowe boys know just how to make things lively.

Mr. Mac Ford has bought the Barney Patterson property here and will move to the place in the spring. Mr. Ford is an enterprising blacksmith, Sam Morton who owned the place all ready to go.

A little daughter of Mrs. Robert Ester died Friday. Cause—scarlet fever. Mr. E. C. King, of Grayson, is visiting friends in Grayson.

Charles Kuntzell, of Louisville, is spending a few weeks at Millwood. A little child living near here was so severely injured this week by falling in an open place to some depth within a few hours. We would learn no particulars.

Charles Dowdell, of Elizabethtown, is spending a few days at Millwood. Grayson Layman slips his neck into the matrimonial noose next Sunday. Go and be happy.

Andy Lockard, of Grayson Springs Station, is in town. This week closes our career as correspondent of the *Hartford Herald*. JUNE ELIOT.

zealous Christian since her attachment to the church, and it seems that her tongue is ever ready to speak the law of kindness.

Death is yet ahead in the land. A son of Mr. H. T. Ford, near Fordville, fell asleep in death last Sunday night. Young Mr. Ford had not yet reached manhood. We extend to Mr. Ford and family our sympathies in their bereavement.

Matrimony is yet notable. Mr. John Kennan and Mrs. Hobler, living over in the edge of Breckinridge county, were united in matrimony on last Thursday, he being 20 and she 17 years old. They were, of course, a flashing couple. And before Christmas passes we anticipate many more weddings. Burdine Wilson has quit clerking and taken to the more congenial occupation of farming.

Ben Wells, our efficient postmaster, who has been slightly indisposed for several days, has about recovered.

Several of our prominent farmers who have given Mr. Charles' Profit-Corn a fair trial, pronounce it a fraud. They say if the originator had only thought to put a "popper" in each ear it would have been a big bonanza for the makers of pop-corn.

The Profit-Corn would furnish hunking for an entire neighborhood, but the turn-out of corn would be far from encouraging. Farmers—don't give Mr. Charles' Profit-Corn a wide berth.

KENDALL'S SPAVIN CURE

From Rey. P. N. Granger.

Presiding Elder of the St. Albans District.

Dr. R. J. Kendall & Co., Gentles:—In reply to your letter I will say that my experience with Kendall's Spavin Cure has been very satisfactory indeed. Three or four years ago I secured a bottle of your agent, and with it cured a horse of lameness caused by spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grew worse, when I discovered a ring bone was forming, I procured a bottle of Kendall's Spavin Cure and with less than a month's use he was as good as new. I have since cured him so that he is no longer lame and the bone has disappeared.

PERMANENCE WILL TELL.

Stoughton, Mass., March 15, 1880.

R. J. Kendall & Co., Gentles:—In reply to your letter I think I ought to let you know that I have removed two bone spavins with Kendall's Spavin Cure, one very large one, don't know how long the spavin had been there. I have cured the horse eight months. It took me four months to take the bone out of the horse. The horse is entirely well, not at all stiff, and no lameness to be seen or felt. This is a wonderful medicine. It is a new thing here, but it does for all what I have done here for me and all I feel for it.

Respectfully yours, CHAS. E. PARKER.

Kendall's Spavin Cure is sure in its effects, mild in its action, as it does not blister, yet it is penetrating and powerful to reach every deep seated joint or to remove any bony growth or other enlargement, such as spavins, splints, carps, calluses, sprains, swellings, any lameness and all enlargements of the joints or limbs, or enlargement in man and for any ailment of which a limb is used for any purpose. It is now known to be the best liniment for man ever used, acting mild and yet powerful.

Send address for illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such universal success to our knowledge, for best as well as cheap.

Price 50 cents per bottle, or six bottles for \$3. All Druggists or our agents will sell it for you. It will be sent to any address on receipt of price by the proprietors.

PERSONAL.

Miss Belle Barnes is visiting her father in Cuyahoga.

C. W. Willoughby, of Owensboro, was in town last week.

Mr. M. McIntyre, deputy revenue collector, was in town a day or two this week.

Miss Lizzie Walker and Mary Rowe, of this place, are visiting the family of Mr. Mansfield Rowe, of Greenville.

Our friend Wm. Wand, one of the able young lawyers of Morgantown, was attending Circuit Court here during the week.

Mr. J. W. Roach, the popular contractor of the late firm of Towner & Roach, of Evansville, was in town several days last week.

Miss Jennie Barnett, of Beda, and Mr. Sam Asher, of Masonville, Daviess county, are the guests of Miss Sadie Jones, of Centertown, this week.

Mr. W. C. Chapman went to Cecil, Harlan county, Ky., last Wednesday and returned Saturday. He reports business lively there and stock selling at good prices.

W. H. Owen and wife, of Owensboro, came up last Sunday and returned Monday. The illness of Mrs. M. A. Thomas, mother of Mrs. Owen, caused the hurried visit.

Our young friend, C. J. Yager, Esq., of the Mulholland Hotel, Greenville, Ky., came over Saturday evening and returned Monday morning. He reports times pretty lively in Greenville.

James A. Carter has moved his family to town and will occupy the new building near Masonville, belonging to Mr. Lou Hill. Mr. Carter will soon begin the erection of his new lively stable.

Our friend and former countyman, I. H. Axton, Esq., of Owensboro, was in town last week. The many friends and acquaintances of his family will regret to learn that they have moved to Owensboro.

Mrs. M. A. Thomas was taken suddenly sick last Wednesday with something like rheumatism and paralysis, and has been quite feeble ever since with but little, if any, change for the better up to this writing.

Mr. Zila O. King, a former resident of this county, now of Louisville, has been here the past week in the interests of the Louisville *Commercial*. He is a live newspaper man and seems to have been intended by nature for that sphere.

We had the pleasure of a call last week from Miss Laura Carson and Miss Virginia Mary Andrews. We always appreciate calls from young ladies, but on this occasion we felt highly complimented in having a call from the Virgin Mary.

COLLEGE NOTES.

The students are studying better now than at any time since the school opened.

Miss Laura Chapize received the highest standing in the Intermediate Department the last month.

A much larger percent. of the students will reach the honor roll this month than at any preceding month.

Lizzie Moore, Annie Barrett, Annie Morris, Mary Bender, Laura Chapize, Henry Williams, Louise Bender and Owen Thomas received badges of honor from their teacher, Miss Hendrick.

The Claytonians met in College Hall last Friday night and had an interesting meeting. After a number of good essays, declamations and select readings they proceeded to the debate, the subject of which was, "Resolved, that the love of money weighs a greater influence over man than the love of woman." Champion for affirmative—J. W. Bishop; negative—J. B. Ferguson. Hon. S. E. Hill also spoke for the affirmative, and Hon. W. D. Coleman for negative, and although Mr. Coleman made a very eloquent appeal for the ladies, Messrs. E. G. Hunley, W. H. Fulkerson and T. R. Wood, judges, decided for affirmative. Mr. Coleman said he was so much in favor of women that should his wife die he would marry again, although she is his second. The Society now has about 35 or 40 members, and is steadily increasing.

"The poem 'Why Should We Dream the Future?' by Cleora Sutton, published in this issue, is well worth a reading. Mr. Sutton is a gifted young man, as all his productions attest. He has a bright future before him, and nothing but his innate modesty will prevent his acquiring great fame as a literary writer and poet. We are glad to note that he has a position in the *HERALD* office now, and that the readers of our paper may be often treated to the rich gems of thought and poetic fancy that emanate from his intellectual storehouse.

—N. H. Ford is the boss timber man in Ohio County this year. He is getting out staves on the land on Rough Creek just opposite Hine's Mill. He has and will get at least 500,000 staves. He made up one tree that turned out 3,325 whiskey barrel staves. The tree was four feet in diameter at the stump, and yielded 25 cuts, the top cut being three feet in diameter. N. A. Bradley is superintending the work. They will get out about four boat loads in all. The timber is for Hugh Stalport, of Louisville. It will be floated down Rough Creek and Green River and then towed up the Ohio River to its destination. The timber is being worked up on a tract of land belonging to E. D. Walker and N. H. Ford.

Miss Lizzie Morton occupied the position of *gratia huius diei*—presiding with grace and dignity. We tender thanks to Judge and Mrs. Mosley for a remembrance on this occasion and for an evening of unalloyed pleasure.

They will not sell in credit to any one.

—An Assault, Arrest, Escape, Foot Race and Renegades.

Henry and Elijah Crow, living near Hine's Mill, came to town Monday to answer an indictment for shooting with intent to kill. While in town they got on a spree and attacked Mr. W. C. Morton, who is a peaceable citizen, and who was not even acquainted with them. Parties interfered and kept them at bay until an officer could come to the rescue. Mr. G. W. Bunker, Deputy Sheriff, who is always on the lookout for just such outbreaks, was promptly on hand and arrested them, which had to be done by force.

Mr. Bunker took a drawn pistol out of the hands of one of them, and, summing help, took them before Judge Newton. They resisted arrest with all their power, and it took eight or ten men to take them to the Court house. The officers and assistants had hardly gotten them to the Court house before they both ran—one going out at the East and the other at the West end of the Court house. The officers shouted to the crowd along the streets to catch them, but one of them still having his "little pistol," no one would take hold. Mr. Phillips, Sheriff, pursued them to the bridge, but when one of them presented the business end of his pistol, Mr. Phillips came back. Mr. Bunker summoned men and started on horseback after them, and recaptured them on the levee and brought them back. They were again taken before Judge Newton who remanded them in jail.

The Grand Jury, which is in session, will, no doubt, indict them for carrying concealed weapons, and if so, their chances to board at *hotel de Salinger* this winter will be pretty good.

—Live Stock Market.

Reported by C. R. Gregory & Co., live stock commission merchants, Bourbon stock yard.

LOUISVILLE, Nov. 29, 1880.

Cattle—Receipts light and but few needed. Common, thin cows and heifers hardly pay the expenses of shipping, while fair to good butcher stock sell readily at fair prices. Good stock steers keep in good demand and sell readily on arrival. Good shipping cattle active at quotations.

Hogs—Receipts for the past week have been heavy—more than could be slaughtered by the six houses that have been in active operation every day, and we have to report a decline in hogs at from 10 to 25 cents per hundred pounds, but we feel that when the glut gets over—which will be in a day or two—the prices will be higher.

—Frank W. Ford

Died at the residence of his father two miles southeast of Fordsville, Ohio county, Ky., Nov. 21, 1880, of typhoid fever, Frank Woodford, son of Harvey T. and Nancy Ford, aged 15 years, 9 months and 21 days. On the morning of the 23rd the funeral sermon was preached at his home by the Rev. Chas. B. Phillips. After service his remains, followed by a large funeral train, were taken to the graveyard on the farm of John Mills and interred with other members of the family. Frank, as he was called, joined the Baptist church at Mt. Pleasant, Ohio county, during a protracted meeting in the fall of 1877, and was a strict member of the church, and just before he died he requested his church subscription to be paid. Deceased was a cousin of James W. Ford, of Hartford.
